Formaldehyde removing curtain
Formaldehyde removal by zeolite micro crystal molecular sieve

According to the experimental data, the validity period of eco formaldehyde removal series curtain is up to three years

Zeolite 沸石微晶体分子筛 除甲醛

沸石(Zeolite)是一种天然或由工业合成具有规则孔穴的晶体材料。其内部充满了规则的孔道，1立方微米的沸石含有100万个微米级孔穴。

沸石具有巨大的表面积，1克活性沸石的表面积相当于一个足球场的面积，是世界上应用最广泛的天然矿产。

经实验数据得出，
ECO除甲醛系列窗帘除甲醛有效期限可长达3年。

银离子抗菌技术的三重作用

银离子 Ag⁺ 具有广谱抗菌作用，能杀死细菌的细胞及抑制细菌孢子的发芽作用。

银离子抗菌技术能破坏细菌的细胞壁，使细菌细胞破裂，银离子能渗透到细菌细胞内，破坏细菌的DNA及蛋白质结构。

超强的日常使用性能

除了超强的抗菌，SILVER+还具有超强的遮光性能，能阻挡99%的紫外线，让您在炎热的夏季也能享受清凉的室内环境。

- 1. 超强的抗菌性能
- 2. 超强的遮光性能
- 3. 超强的隔热性能

超强的抗菌保护

为了给您提供更全面的抗菌保护，我们还在SILVER+的原料之上，又添加了一层抗菌保护，让您的窗帘在长期使用过程中，始终保持超强的抗菌性能。

01. Super health and environmental protection

Yuma dimming fabric has passed the standard 100 by Oeko-Tex (Textile ecological certification) certification, ten ring certification and GB / t20944 3. The antibacterial performance test of textiles has reached highest level, and the volatile substances such as phthalic acid, aromatic hydrocarbon, SVHC (substances of high concern), pH value, TVOC, free formaldehyde and heavy metals are fundamentally controlled to ensure the health and environmental protection of Yuma dimming fabric.

02. Class A quality standard, and the utilization rate is more than 1.2 times that of similar fabrics

- 1.Three dimensional inspection of point, line and surface, and strict quality control.
- 2.Class A quality standard, eliminate defects, bow / skew, ruffle edge and other quality problems
- 3.Quality standard is much higher than normal standard of fabric industry, and usage of YUMA fabric is more than 1.2 times higher than other companies..

03. Good flatness

Yuma dimming fabric has good flatness. There is no cupping, lotus leaf edge and waviness in full width test. It is suitable for making super big width blinds, with better visual effect and more beautiful decoration.

03. Good flatness

Yuma dimming fabric adopts 14 processes, such as special polyester yarn imported from Korea, high-temperature and strong setting treatment f setting machine imported from Korea, also TQM inspection of strict quality control team. It ensures low fabric shrinkage and stable fabric size. In the process of repeated lifting and lowering, it does not twist or deform, has stable quality and long service life to meet needs of all kinds of home decoration .

04. Full color and high color fastness

The yarn imported from Korea has full color, high color degree, good oxidation resistance, which makes fabric not easy to fade. Tested by SGS, an international authoritative organization, the color fastness of Yuma dimming fabric has reached grade 6-8 of the national standard, ensuring that the fabric will not fading obviously after 5 years of normal use.
